

# INFOSYON ACADEMY

## FEBRUARY 2021

Further Education  
and Research  
for Facilitators  
of Organisational  
Constellations

As an international association we can wonderfully overcome distance online, but not time zones. With the III. international infosyon online academy we would like to experiment with time differences and offer a program that kicks-off in Europe in the morning and includes the more western part of the world (North and South America) in the afternoon.

CONNECTING  
WITH THE  
COMMUNITY

**PROGRAM** All times are CET (Central European time)
